

**OEM APPAREL & GLOVES
MANUFACTURER**

ABOUT - THE EVOLUTION

An **Apparel & Gloves** manufacturing company based in Faisalabad, Pakistan, with the capability to produce garments at scale, while maintaining full compliance with international standards for export, across workwear, safetywear, activewear, hygiene wear, and fashion wear.

Our business began as a gloves manufacturer with the name: "**Safety Wear**" in the year **2000**, and grew into "**Mesh Apparel**" by integrating an additional layer of garments manufacturing, to fulfill the evolving market needs.

With this continued legacy of a homegrown company, built through firsthand effort, we have transformed with a new vision and mission as a tech-driven but human-moated organization, because we are built around **Authenticity, Perspective & Relationships.**
